Trees

Evergreen

	Height/Width (in ft)**	Drought Tolerant	Tolerates Wet Soil	Sun	Partial Sun	Shade	Developed Areas	Native Species	Details
**Approximate size in 20 years. Actual size will vary.									
<i>Arbutus menziesii</i> Madrone	50/30	●		●				●	Difficult to transplant. Very susceptible to overwatering. Hard to find. Prefers sandy, dry, and sunny locations.
<i>Calocedrus decurrens</i> Incense Cedar	40/15	●		●					Narrow and columnar. Very drought tolerant; native to Oregon.
<i>Cedrus deodara</i> Deodar Cedar	50/45	●		●			●		A true "Cedar" with needles. Compare with Libani and Atlas Cedars. Trees vary from wide to very wide and need lots of room.
<i>Chamaecyparis obtusa</i> Hinoki Cypress	25/15		●	●			●		Small and slow-growing. Attractive layered branching.
<i>Chamaecyparis lawsoniana</i> Port Orford Cypress	60/25			●	●		●		Native to Oregon; looks similar to Western Red Cedar. Subject to root fungus problems.
<i>Chamaecyparis nootkatensis</i> Alaskan Yellow Cedar	60/25			●	●		●		Narrow, graceful; often pendulous and irregular form
<i>Cupressocyparis X. leylandii</i> Leyland False Cypress	45/20	●		●			●		Subject to phytothera root rot. Fast growing; dull green color.

Trees

Evergreen

	Height/Width (in ft)**	Drought Tolerant	Tolerates Wet Soil	Sun	Partial Sun	Shade	Developed Areas	Native Species	Details
**Approximate size in 20 years. Actual size will vary.									
<i>Sequoia sempervirens</i> Coast Redwood	100+/40			•	•		•		Requires moist soil in a large grove area; not for use as a solitary tree.
<i>Sequoiadendron gigantea</i> Giant Sequoia	100+/45			•					With ample room, this tree will form a giant cone pyramid.
<i>Thuja plicata</i> Western Red Cedar	80+/25				•			•	The largest member of the Cypress family. Great for screening; grows 80-200 feet in height and retains its lower branches. Prefers moist soils.
<i>Tsuga heterophylla</i> Western Hemlock	60+/20				•	•		•	This native is harder to use than Douglas Fir or Western Red Cedar. Intolerant of full sun.
<i>Tsuga mertensiana</i> Mountain Hemlock	30/18			•	•		•	•	Slow-growing and narrow. Prefers sun.
<i>Umbellularia californica</i> Bay Laurel	30/25	•			•	•			Native to Oregon and California. Leaves from this tree are used in cooking.
